<b>Facility AUDIT FINDINGS</b>	
<b>Summary of Audit Findings</b>	
<p>The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.</p> <p>Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.</p>

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	0
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
<b>40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b>	0
<b>40. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b>	<input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.  <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.

<p><b>40. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>This was based on conversations with staff and residents and a review of resident rosters.</p>
<p><b>41. ## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<b>64. Did you have access to all areas of the facility?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>Was the site review an active, inquiring process that included the following:</b>	
<b>65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>68. Informal conversations with staff during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p><b>69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>No text provided.</p>
--	--------------------------

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p><b>70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

**72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual abuse</b>	1	0	1	0
<b>Staff-on-inmate sexual abuse</b>	2	0	2	0
<b>Total</b>	3	0	3	0

**73. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual harassment</b>	5	0	5	0
<b>Staff-on-inmate sexual harassment</b>	1	0	1	0
<b>Total</b>	6	0	6	0

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

#### 74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	<b>Auditor Discussion</b>
	<p>(a) The agency ensures that each facility it operates develops, implements, and documents a staffing plan that provides for adequate levels of staffing, and, where</p>

applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, the facility takes into consideration: (1) Generally accepted juvenile detention and correctional/secure residential practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility's physical plant (including "blind-spots" or areas where staff or residents may be isolated); (6) The composition of the resident population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors. According to the PAQ, the facility's average daily number of residents is 12. During the site review, staffing ratios were compared to the written staffing plan. The facility is staffed according to the staffing plan. Informal conversations with staff and residents, and interviews with the Superintendent and the PREA Compliance Manager confirm that the facility meets staffing ratios at all times.

(c) The facility maintains staff ratios of a minimum of 1:8 during resident waking hours, except during limited and discrete exigent circumstances. The facility maintains staff ratios of a minimum of 1:16 during resident sleeping hours, except during limited and discrete exigent circumstances. The facility fully documents any limited and discrete exigent circumstances during which the facility did not maintain staff ratios. The facility ensures only security staff are included when calculating

these ratios. The facility is obligated by law, regulation, or judicial consent decree to maintain the staffing ratios. According to the PAQ, the facility has not had any deviations to the staffing plan.

As evidenced by:

(e) The facility has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The policy and practice are implemented for night shifts as well as day shifts. The policy prohibits staff from alerting other staff members that these supervisory rounds are occurring, unless such an announcement is related to the legitimate operational functions of the facility. While onsite, the auditor spot checked documentation.

	<b>Auditor Discussion</b>

(a) The agency takes appropriate steps to ensure that residents with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment, including residents who are deaf or hard of hearing, blind or have low vision, intellectual disabilities, psychiatric disabilities, speech disabilities, and other disabilities such as cognitive disabilities and other physical disabilities. Such steps include, when necessary, ensuring effective communication with residents who are deaf or hard of hearing; providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary; ensuring effective communication with residents with disabilities including residents who have intellectual disabilities, limited reading skills and who are blind or have low vision. During the site review, the auditor observed ADA accommodations, to include PREA signage in English and Spanish. The auditor tested the facility's process for securing interpretation services on-demand via Language Line. The phones worked properly. Residents do not have to self-identify. Language Line Services were readily available and accessible. Phones are in a location that enables privacy. <b>115.341</b>	<b>Obtaining information from residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>(a) The agency has a policy that requires screening (upon admission to a facility or transfer to another facility) for risk of sexual abuse victimization or sexual abusiveness toward other residents. The policy requires that residents be screened for risk of sexual victimization or risk of sexually abusing other residents within 72 hours of their intake. According to the PAQ, 186 residents entering the facility (either through intake or transfer) within the past 12 months whose length of stay in the facility was for 72 hours or more were screened for risk of sexual victimization or sexually abusing other residents. The policy requires that the resident's risk level be reassessed periodically throughout their confinement. During the site review, staff responsible for completing the risk screening tool provided a mock demonstration of the intake screening process. The screening process occurs in a setting that ensures as much privacy as possible given the potentially sensitive information that could be discussed. Screening staff ask screening questions in a manner that fosters comfort and elicits responses. Screening staff use an instrument to collect information during the risk screening process. Screening staff affirmatively ask residents about their sexual orientation and gender identity by directly inquiring if they identify as LGBTI (in addition to making a subjective determination about perceived status). Screening staff use additional sources of information to complete the initial risk screening assessment. Informal conversations with staff confirm that staff understand how information is collected and how privacy is maintained. Informal conversations with residents confirm that they felt comfortable during the process and their privacy was maintained.</p> <p>As evidenced by:</p> <p>Sexual Abuse and Harassment Prevention and Intervention Policy</p> <p>PREA Bunk Issue Reviews</p> <p>Medical PREA Questionnaire samples</p> <p>Victimization Screening samples</p> <p>Screening Tool</p> <p>Document Review Worksheets</p>

During the site review, posted signage throughout the facility was observed. Signage includes audit notices, how to report sexual abuse and sexual harassment, access to outside victim emotional support services, and other relevant PREA information. Information provided on signage is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Signage is provided in English and can be translated for the other languages most commonly spoken in the facility. The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc. The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage. Informal conversations with staff and residents confirm that signage is posted throughout the facility on a continuous basis. The internal reporting system was tested (forms and locked drop boxes were readily accessible). Boxes are checked daily. Mail (letters) can be written and mailed. Mail goes out Monday through Friday. Residents do not pay for postage. The facility does not utilize electronic reporting mechanisms. Informal conversations with residents confirm that they are aware of how to report and understand that they can report verbally to staff, submit grievances or notes in the drop box, sending letters through the mail, or call the reporting hotline numbers listed on the posters.
